REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art does not disclose or fairly suggest a golf ball having on its outer surface a multiplicity of dimples which are generally circular as viewed in plane and which each have a center and a peripheral rim, wherein the number of those dimples having a neighbor relationship that provided a reference dimple is arbitrarily selected from the multiplicity of dimples and an adjacent dimple is disposed adjacent to the reference dimple, an angle α included between two line segments drawn from the center of the adjacent dimple tangent to the rim of the reference dimple and an angle β included between two line segments drawn from the center of the reference dimple tangent to the rim of the adjacent dimple satisfy $|\alpha-\beta| \geq 15^\circ$ is at least 60% of the total number of dimples.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
